INTERNSHIP EXPERIENCE

QSPIDER & Self

Internship Trainee

- 6 Months Training of Full Stack Development
- Learn basic of Frontend Development Online
- Hand on practice on Development

PROJECTS

Hospital Management System

Project Description:

The hospital management system, built with Java and MySQL, allows users to add and view patient and doctor information, and schedule appointments. It streamlines hospital operations with efficient data management and appointment scheduling, ensuring optimal patient care and staff coordination.

Technologies Used:

Java, MySQL

Personal Portfolio

Project Description:

I've developed a personal portfolio using HTML, CSS, and JavaScript to showcase my skills and projects. The portfolio features a sleek, modern design with interactive elements and smooth navigation, highlighting my work and achievements effectively.

Technologies Used:

HTML, CSS, JavaScript
